SIEM & THREAT INTELLIGENCE

Our proactive, intelligence-driven SIEM & Threat Intelligence solution dramatically reduces the risk of false positives and delivers tangible visibility into legitimate attacks.

WHILE SECURITY INFORMATION AND EVENT MANAGEMENT (SIEM) SYSTEMS ARE ONE OF THE MOST VERSATILE TOOLS FOR EMPOWERING SECURITY TEAMS, THEIR EFFECTIVENESS DEPENDS ON THE INFORMATION THEY RECEIVE.

Unfortunately, if SIEM systems contain unvalidated, raw threat data, the results are often inconclusive and challenging to comprehend.

At RIOT, we provide a complete SIEM & Threat Intelligence solution designed to reduce the risk of false positives and deliver tangible visibility of legitimate attacks. Our solution is a proactive, intelligence-driven defence that provides conclusive threat visibility with 24/7 monitoring and real-time alerts and reporting.

Leveraging our SIEM technology, we continuously monitor attacks against our customer base, building an ongoing stream of data related to current or potential threats from a wide variety of threat actors. This constant stream of intelligence enables our team to proactively detect and block malicious traffic across our entire customer base.

KEY BENEFITS OF SIEM & THREAT INTELLIGENCE

✔ **Stronger security baseline.**

✔ **Prevents potential security threats.**

✔ **Reduces the likely hood of breaches.**

✔ **Superior reporting.**

✔ **Stronger IT compliance.**

✔ **Proactive security posture.**

HOW WE HELP YOU
