

MANAGED ASSET VISIBILITY

Managed asset viability services for critical infrastructure and ICS/OT environments.

RIOT

REVOLUTIONARY THINKING,
EVOLUTIONARY INTELLIGENCE.

riotsolutions.com.au

GAIN VISIBILITY OF YOUR ICS/OT INFRASTRUCTURE.

RIOT specialises in deploying asset visibility solutions for critical infrastructure across organisations that operate cities, campuses, building automation technologies, water pipelines, energy grids, distribution centres and transportation systems.

As technology solutions are designed and implemented for ICS and IoT systems, there is a requirement gain insight into the technologies and infrastructure deployed across your OT networks as these environments are the new cyber hacker's frontier.

Asset Visibility provides a unified and comprehensive view of all the devices in your environment, including remote sites. Moreover, we can identify where assets are, when they connect, whether they are missing critical security controls or updates, which applications they are using and if they are vulnerable.

With a wealth of industrial knowledge tailored specifically to critical infrastructure, RIOT understands the challenges and demands of building world-class smart and connected networks and offer a range of services to meet your digital technology needs.

KEY BENEFITS OF ASSET VISIBILITY SERVICES

- ✓ **Visibility of your operational environment assets.**
- ✓ **Understand your critical infrastructure vulnerabilities and risks against our comprehensive asset database.**
- ✓ **The ability to automate security policy enforcement against the identified risks and asset vulnerabilities.**
- ✓ **Alerting based on behavioural monitoring across the network and critical assets.**

HOW WE HELP YOU

DISCOVER AND ANALYSE

Our asset discovery and vulnerability capabilities include OT, IIoT and IoT device recognition, industrial protocols across BACNET, Profinet and Modbus, Passive Agentless, and PLC and SCADA reporting.

We will analyse the asset discovery phase and provide a comprehensive dashboard of your critical assets and the associated vulnerabilities and risks.

MONITOR AND ALERT

Whether as an extension of your existing support capabilities or bolstering limited internal security and OT skills, we can enhance the security and ongoing performance of your ICS/OT environment for better outcomes.

Our ICS/OT Asset Visibility Managed Services capabilities include attack surface management, comprehensive reporting, as well as alerting on system and security deviation.

MAINTAIN INTEGRITY

We work to understand your critical infrastructure business requirements and desired future-state to deliver a strategic maturity assessment comprising gap analysis and recommended options for the future.

Maintain the visibility across your environment understanding the discrete changes that may lead to an indicator of compromise.

INDUSTRIAL NETWORK DESIGN

Based on industry best practices, our proven methodology delivers short- and long-term strategies for resilient digital plumbing in harsh environments.

Our multi-vendor capabilities cover Ring Topologies, Converged Ethernet Architectures, Industrial Ethernet environments, and secure remote access. Our approach allows for quicker execution whilst creating your blueprint for the future.

CRITICAL ASSET VISIBILITY SERVICES COVER

ENTERPRISE & GOVERNMENT

Building Management Systems, CCTV

SMART & CONNECTED NETWORKS

Smart Cities, Manufacturing, Biomedical & Healthcare

INDUSTRIAL IT NETWORKS

OT / IT / IIoT convergence for Critical Infrastructure

TRANSPORT INFRASTRUCTURE

Roads, Light & Heavy Rail

UTILITIES

Power, Energy & Water

EDUCATION

Universities & TAFE Research environments

REVOLUTIONARY THINKING, EVOLUTIONARY INTELLIGENCE.

We are a multi-disciplinary team of innovative thinkers who use a no-nonsense approach to always find the right network security solution for your business, which means playing chess, not checkers to achieve the right outcomes.

TECHNOLOGY AND PEOPLE

Our strong customer relationships stem from a commitment to always advise on fit for purpose technology, and doing right by our customers.

ACCURATE AND PROACTIVE

We deliver real-time alerts and reports to help you achieve proactive transformation and monitoring to mitigate issues in alignment with attack surface management to maintain business-as-usual across your digital environment.

STRATEGIC PARTNERSHIPS

Through our strong business and vendor partnerships, we have the breadth of knowledge and expertise to help you deal with any scenario as soon as it happens. We provide you with the expertise and flexibility to get the results you need through a strategic approach.

SECURE YOUR CRITICAL INFRASTRUCTURE TODAY

To learn more about our Managed Asset Visibility capabilities or discuss your technology and business needs, reach out to the RIOT team today.
