DARK WEB INTELLIGENCE

Our dark web monitoring platform is an efficient and effective risk-based solution that delivers actionable intelligence against hazardous dark web threats.

IN TODAY'S CONNECTED WORLD, EVERY BUSINESS IS AWARE OF POTENTIAL CYBER-CRIMINALS, BUT NOT EVERY COMPANY IS EQUIPPED TO DEAL WITH THE RISK.

The dark web is a labyrinth of threats hidden from the typical internet user, only accessible via specific software. As users can remain completely anonymous inside the dark web, the danger and frequency of cyber-criminal activity are high.

Businesses need the tools to obtain intelligence quickly and proactively to protect against dark web threats. However, manually searching the dark web for stolen information is often inefficient, time-consuming, and exposes a business to even greater risk.

At RIOT, we provide a safe and structured dark web monitoring platform that is risk-based, efficient and effective for your organisation. Our dark web platform delivers context-specific, actionable intelligence from the widest breadth of available sources, identifying threats early and managing them correctly.

KEY BENEFITS OF DARK WEB INTELLIGENCE

✓ **Track potential threats by leveraging over 40 top-tier intelligence feeds.**

✓ **Identify exposed credentials in real-time to avoid significant harm to your business.**

✓ **Detecting data leaks.**

RIØT

HOW WE HELP YOU

ACTIVE RECONNAISSANCE

Leveraging our Dark Web Intelligence scanning platform, we maintain access to over 40 top-tier intelligence feeds to continuously collect, analyse and cache data from elusive and volatile dark web sources. This enables RIOT to closely monitor and identify all potential threats to your business.

DETECT EXPOSED CREDENTIALS

Our intelligence platform performs regular cyclical scanning to detect if your users' credentials are compromised. Thus, ensuring your business can take immediate action when needed to prevent a breach.

MAP YOUR ATTACK SURFACE

Our platform eliminates assumptions to reveal the true extent of your attack surface, including assets that may have been lost or forgotten, misconfigured devices, exposed cloud buckets and potentially compromised infrastructure. This ensures your business has complete visibility across every touchpoint.

REVOLUTIONARY THINKING, EVOLUTIONARY INTELLIGENCE.

We are a multi-disciplinary team of innovative thinkers who use a no-nonsense approach to always find the right network security solution for your business, which means playing chess, not checkers to achieve the right outcomes.
TECHNOLOGY AND PEOPLE

Our strong customer relationships stem from a commitment to always advise on fit for purpose technology, and doing right by our customers.

ACCURATE AND PROACTIVE

We deliver real-time alerts and reports to help you achieve proactive transformation and monitoring to mitigate issues in alignment with attack surface management to maintain business-as-usual across your digital environment.

STRATEGIC PARTNERSHIPS

Through our strong business and vendor partnerships, we have the breadth of knowledge and expertise to help you deal with any scenario as soon as it happens. We provide you with the expertise and flexibility to get the results you need through a strategic approach.
